

Erin M. Buchanan

Professor of Cognitive Analytics

Harrisburg University of Science and Technology · 326 Market St. · Harrisburg, PA 17101

✉ ebuchanan@harrisburgu.edu 🌐 [doomlab](#) 🌐 www.aggieerin.com | Updated: January 10, 2026

Education

Ph.D., Experimental Cognitive Psychology, Texas Tech University 2008

Dissertation: *What's the difference: A study on semantic and associative priming and blocking.*

Committee: Drs. William S. Maki (chair), Patricia R. Delucia, Ruth Maki, Roman Taraban

M.A., Experimental Psychology, Texas Tech University 2006

Thesis: *Feature binding: Not quite so pre-attentive*

Committee: Drs. M. Kathryn Bleckley (chair), William S. Maki

B.S., Psychology, Texas A&M University 2004

Employment

Harrisburg University of Science and Technology, Analytics Full Time

Professor of Cognitive Analytics 2019-Current

DataCamp Instructor Part-Time

Structural Equation Modeling in R [Link](#) 2018-Current

Financial Modeling in Spreadsheets [Link](#) 2019-Current

Missouri State University, Department of Psychology Full Time

Associate Professor of Quantitative Psychology 2014-2018

Assistant Professor of Quantitative Psychology 2010-2014

University of Mississippi, Department of Psychology Full Time

Instructional Assistant Professor of Psychology 2008-2010

Texas Tech University, Department of Psychology Part Time

Graduate Part-Time Instructor 2005-2008

Graduate Teaching Assistant 2004-2005

Texas A&M University, Student Learning Center Part Time

Supplemental Instruction Leader for Sociology and Psychology 2002-2004

Honors and Awards

Society for the Improvement of Psychological Science Commendation 2024

Society for the Improvement of Psychological Science Commendation 2020

NACADA Academic Advising Excellence Faculty Advisor Award 2016

Nominated for the Missouri State Master Online Recognition Award	2016
Curtis P. Lawrence Award for Excellence in Advising Recipient, Missouri State University	2016
Missouri State University Honors College Curtis P. Lawrence Teaching Award Recipient	2015
Missouri State University Honors College Research Award Recipient	2014
Nominated for the Missouri State University Foundation Award in Research	2014; 2015
Nominated for the Curtis P. Lawrence Award for Excellence in Advising, Missouri State University	2012
Nominated for Frist Teaching Award, University of Mississippi	2009
Teaching Academy's Departmental Excellence in Teaching Award	2007
First place in the 5th Annual Graduate Student Poster Competition	2006
Department of Psychology Travel Grant	2005-2007
Graduate School Travel Grant	2005-2007
Department of Psychology Competitive Scholarship	2004-2006

Interests

Psycholinguistics and memory

Semantic memory, associative memory, priming of memory types, normed databases, linguistic variables, memory maps, judgments of memory, language statistics, working memory, individual differences.

Statistics

Alternatives to null hypothesis testing, effect sizes and confidence intervals, multigroup confirmatory factor analysis, item response theory, Bayesian inference statistics, hierarchical linear modeling, exploratory factor analysis, statistical reporting

Experience

The DOOM Lab	2019-Current
Harrisburg University of Science and Technology, Analytics	
Principal Investigator	
The DOOM Lab	2010-2018
Missouri State University, Department of Psychology	
Principal Investigator	
Positive Psychology - Clinical Disaster Research Center	2009-Current
University of Mississippi, Department of Psychology	
Researcher	
Geospatial Sciences Collaborative Team	2009-2011
University of Mississippi, Depts of Psychology, Computer Science,	
Health Exercise Science, and Geospatial Sciences	
Researcher	
Psycholinguistics Lab	2008-2010
University of Mississippi, Department of Psychology	
Principal Investigator	
Memory and Judgments Laboratory for Dr. William Maki	2006-2008
Texas Tech University, Department of Psychology	
Graduate Researcher	
Memory and Aging Laboratory Dr. M. Kathryn Bleckley	2004-2006
Texas Tech University, Department of Psychology	
Graduate Coordinator and Researcher	
Cognition and Perception Laboratory Dr. Takashi Yamauchi	2004
Texas A&M University, Department of Psychology	
Undergraduate Research Assistant	

Skill Set

Programming knowledge

HTML, CSS, Perl, C++, PHP, MSSQL, MYSQL, Python, R, Spark, Javascript (React)

Software

SPSS (including syntax), Excel (macros/functions), AMOS, LISREL, RStudio, Shiny, MPlus, Inquisit, Qualtrics, Observation Oriented Modeling (OOM), JASP/Jamovi

Publications

Statistical Packages & Tools

Grants

Psycholinguistics, Cognitive Science

Co-Principal Investigator. OpenNorms: Building an Open, FAIR, and Scalable Portal for Multilingual Normed Data. Dutch escience center (2025, submitted). €381,510.

Co-Principal Investigator. Co-LLECT: Collaborative Language Data Collection and Technology. OSCARS. (2025, submitted). \$291,500.

Partner Institution Faculty Mentor. Information control processes: an alternative and multidimensional approach to study their development. Horizon MSCA. (12/01/2025-12/01/2027). €288,859.

Principal Investigator. Many Languages, One Network: Cross-Linguistic Semantic Priming Effects in 45 Languages and Large Language Models (06/01/2025-06/01/2027). \$473,434.

Principal Investigator. Measuring the Lexicon: Computational Approaches to Quantifying Similarity Among Cognitive Representations. Psychonomic Society Estes Grants. (2019, submitted). \$19,000.

Co-Principal Investigator. To see or not to see: Perceptual learning in organic chemistry. National Science Foundation (2015, submitted). \$980,730.

Principal Investigator. Using Language to Understand Congressional Voting Behaviors. National Science Foundation (2014, submitted). \$176,098.

Principal Investigator. Studying Semantic Memory of Intelligent Design Systems. IBM's Watson Group. (2014). Applied for access to database.

Principal Investigator. Counting tweets: How social media word frequency enhances our understanding of cognition. Twitter Grant Competition. (2014). Applied for access to database.

Principal Investigator. Memory as a Complex System: Creating Online, Dynamic Semantic Memory Models. James S. McDonnell Foundation Scholar Award in Complex Systems. (2014, submitted). \$450,000.

Principal Investigator. Online course development grant. Online course development stipend. Missouri State University Provost's Office. (1/1/14-5/15/14). \$2,400.

Principal Investigator. Graduate Recruitment Grant. Missouri State University Graduate College. (1/1/14-12/15/14). \$1,800.

Principal Investigator. EXP: Supplemental Instruction: Bridging Technology and Student Academic Success Programs. National Science Foundation (2012, submitted). \$526,809.

Principal Investigator. We Are All Biased. Fixing Judgments of Associative Memory. Missouri State University Graduate College's Summer Research Stipend. (6/1/2012-8-15-2012). \$6,000.

Principal Investigator. Investigating Effective Supplemental Instruction to Improve Student Success. Missouri State University's Dean's Summer Research Stipend. (5/31/2011-9/1/2011). \$6,000.

Principal Investigator. Cheating at Scrabble: An Online Database of Word Information. Missouri State University's Faculty Research Grant. (1/2011-1/2012). \$7,095.

Principal Investigator: Understanding Language Learning in the Brain: Using EEG Brain Computer Interface to Improve Development. Honda Initiative (2009, submitted).

Applied Statistics

Co-Principal Investigator. Comparative Effectiveness of an AI-Generated Personalized Migraine Report to Support Shared Decision Making and Treatment Adherence. PCORI PLACER (2026, submitted). \$1,400,000.

Statistician. Randomized controlled feasibility trial of a just-in-time intervention and mobile application for adults with misophonia. (2026). LOI accepted.

Principal Investigator. STAPLE Metadata Commons: A Community-Driven Library for Open, Reusable Metadata Standards. ORCA Catalytic Awards Program (2025, submitted). \$15,000.

Co-Principal Investigator. Empowering Migraine Patients and Optimizing Wellness through Evidence-based, Real-time Personal Health Informatics (EMPOWER). National Institutes of Health (2025, submitted). \$1,106,420.

Principal Investigator. Empowering Shared Decision-Making through Customized Reports to Lower Unmet Disease Burden. Pfizer. (2025, submitted). \$197,643.

Statistician. Examining momentary and longitudinal associations between misophonia and emotion regulation: an intensive experience sampling approach. (06/25/2025-06/25/2026). \$70,000.

Principal Investigator. STAPLE+: Advancing Open Science through Interoperability, Collaboration, and Community. OSCARS. (2025, submitted). \$223,409.

Principal Investigator. STAPLE - Science Tracking Across Project Lifespan. National Science Foundation. (2024, submitted). \$241,776.

Principal Investigator. STAPLE - Science Tracking Across Project Lifespan. NASA ROSES. (10/01/2023-10/01/2024) \$97,059.

Principal Investigator. Customized Response to Treatment Feedback for Patients with Migraine and their Providers. Pfizer. (2023, submitted). \$470,456.

Principal Investigator. Customized Response to Treatment Feedback for Patients with Migraine and their Providers. Agency for Health Care Research and Quality. (2022, submitted). \$1,015,699.

Principal Investigator. Blueprint for the Enabling QUantitative Interpretation of Patient Preference Estimate Data (EQUIPPED) Database. Pfizer. (2021, submitted). \$43,953.

Principal Investigator. Building inclusive open data infrastructure for a recovering pandemic world. Trans-Atlantic Platform Social Sciences and Humanities. (2021, submitted). \$199,733.

Principal Investigator. Amazon Response Grants for Non-Profits (in partnership with the Psychological Science Accelerator). (04/01/2020-09/01/2020). \$1,200.

Principal Investigator. Validation of the Functional Assessment of Migraine Scale (FAMS). National Headache Foundation (2020, submitted - POSTPONED DUE TO COVID). \$64,016.00.

Statistician. The Impact of Migraine on Women in the Workforce. National Headache Foundation (06/01/2020-12/01/2020). \$5,000.

Statistician. Trajectories of psychological functioning and pandemic preparedness for students quarantined during the COVID-19 pandemic. National Hazards Center Quick Response Research Grant Program. (06/01/2020-12/01/2020). \$3,240.

Principal Investigator. Creating Enhanced Shared Decision Making through a Migraine Tracking Application. Presidential Research Grant at Harrisburg University. (01/01/2020-01/01/2021). \$19,180.

Principal Investigator. Development of a Headache Meaningful Response Measure Using a Patient Guided Approach. National Headache Foundation (04/01/2018-04/01/2019). \$99,592.

Statistician. Utilization of adaptive patient-centered electronic behavioral feedback intervention for the prevention of transformation from episodic to chronic migraine. Pragmatic Clinical Studies funded by the PCORI Foundation. (2014, submitted). \$2,000,000.

Statistician. Meaning and Purpose in Life as it Relates to Suicidality in Adult Inpatients with Serious Mental Illness. American Foundation for Suicide Prevention. (2013, submitted). \$30,000.

Statistician. Predictors of Subjective Well-being Among Survivors of the Armed Conflict in Colombia: a Positive Psychology View. Psychology Beyond Borders. (2013, submitted). \$8,156.38.

Principal Investigator. Visualizing Statistics: Developing Interactive Tools to Improve Statistics and Research Learning Outcomes. Faculty Teaching and Learning Center Curriculum Grant. (1/1/14-8/15/14). \$4,500.

Principal Investigator. Using Item Response Theory to Explore Scale Psychometrics. Missouri State University's Faculty Research Grant. (1/1/14-12/31/14). \$2,040.

Principal Investigator. A solution to the file drawer problem: Alternative analyses to null hypothesis testing. National Science Foundation (2013, submitted). Up to \$1,000,000.

Principal Investigator. Luella Stuck Cline resources award for textbook purchase. Missouri State University Library Funding. (2012, submitted). \$366.

Co-Principal Investigator: II-NEW: An Infrastructure for Distributed Research on Neurophysiology and Brain-Computer Interface. National Science Foundation (2010, resubmitted).

MSU, 2013-2015 | Marshall Beauchamp | IRT Analyses of Body Dissatisfaction in Men

MSU, 2013-2015 | Kayla Jordan | Linguistic Markers of Writing about War

MSU, 2012-2014 | Marilee Teasley | When Music Goes Up in Flames: The Impact of Academic Advising on the Perceived Burnout of Music Majors

MSU, 2011-2013 | Kathrene Valentine | Alternatives: A Comparison of Parametric, Nonparametric, and Observation Oriented Modeling techniques

Note. I have supervised many graduate and undergraduate theses, presentations, and assistants. More information about each of their presentations and outcomes can be found on my website under students.

Teaching

Interests

Undergraduate

Statistics, Cognition, Research Methods/Experimental Design, Memory, Psycholinguistics, Analytics

Graduate

Experimental Methods, Basic Statistics (ANOVA, Regression), Advanced Statistics (Multivariate, Structural Equation Modeling), Non-parametric Statistics, Cognition, Attention, Memory, Language

Courses Taught

Undergraduate

Cognitive Psychology, General Psychology, Lab in Cognitive Psychology, Statistics for the Social Sciences, Advanced Statistics, Research Methods, Psycholinguistics, Freshman/Senior Honor's Seminars

Graduate

Regression/Factor Analysis, Multivariate Statistics, Advanced Statistics, Graduate Statistics, Nonparametric Methods, Structural Equation Modeling, Bayesian Methods, Sentiment Analytics, Natural Language Processing, Human Language

Course Evaluations can be provided upon request.

Statistics Outreach

Statistics Certificate: I designed a statistics and research methods graduate certificate for Missouri State University. I coordinated the program, working with students to ensure they've completed the requirements in a way that matches their long-term goals. Certificate requirements are one graduate statistics course, one research methods course, and two other electives in statistics or research based courses.

In-Person/Online Help Desk: The Psychology Help Desk was designed as small group tutoring/help opportunity for our statistics and research methods courses (approximately 1,500 students annually). The Help Desk holds regular open hours to accommodate students who need assistance with program or math related questions. The online Help Desk was created to reach our busy, non-traditional, and online students. I supervised the graduate assistant and practicum students who hold open hours. I trained these students, as well as create materials for the online portion of the Help Desk. The graduate assistant answered a special email box for the Help Desk and provides assistance through a special Blackboard portal. The Blackboard site was used to link students to appropriate materials, contact information for the Help Desk, and email out information as necessary.

YouTube: My YouTube channel contains many hours of tutorials on how to complete statistical procedures in SPSS, Excel, R, MOTE, and G*Power. This information is used as teaching material in my courses and is open access for students/researchers to use as needed. I respond to online questions about these materials and take requests for video material.

MOTE: MOTE is a free R package and online app that calculates effect sizes and their non-central confidence intervals. This package was designed to fill the gap between running hypothesis testing calculations and effect sizes for students in a simple format – while also adding in confidence intervals for effect sizes because of the promotion for these values in reporting.

StatsTools: The Statistics Tools or Statistics of DOOM website ties all these resources together in one convenient location. Materials from my courses (basic/advanced/graduate statistics and structural equation modeling) are provided with multiple formats (SPSS, Excel, R) for use by students in my courses and the interested graduate student or researcher. This information is formatted so that an individual may download the entire course for a template when assigned as a course prep.
